DATA SCIENTIST

As an undergraduate student at Parul University, I have strong proficiency in Python, NumPy, and Pandas, along with a solid foundation in Machine Learning. I possess basic knowledge in HTML, CSS, and Java, and have good problem-solving skills. Additionally, I have a fundamental understanding of Data Structures and Algorithms (DSA). I am passionate about becoming a data scientist, aiming to leverage my analytical skills and technical expertise to derive meaningful insights and drive impactful solutions.

SKILLS

- Python
- NumPy
- Pandas
- Machine Learning
- Statistics, Probability, Calculus
- HTML, CSS, Java(Basic)
- Problem Solving Skills
- DSA
- SQL

PROJECTS

Data Analysis Projects

Projects focusing on data analysis leveraging Python.

- Analyzed sales data using Python and Pandas to derive insights.
- Conducted weather data analysis leveraging Python for forecasting.

EDUCATION

Bachelor of Technology in computer science

06/2022 - 05/2026

Parul University

Vadodara, Gujarat

12th Grade

06/2020 - 03/2022

Gowtham Jr College

Badvel, Kadapa, AP

CERTIFICATION

- Python for Data Science
- SQL and Relational Databases

LANGUAGES

- English
- Telugu
- Hindi
